Dasun Dilshan

Software Engineer Intern

Tel: +94 77 05 57 567 | dasundilshan376@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Information Technology student at the Institute of Technology, University of Moratuwa, seeking a software engineering internship, with hands-on experience designing and building full-stack web applications, RESTful services and database systems. Proficient in Python, Java, Spring Boot, React and MySQL, with coursework and certifications in AI/ML solutions and prompt engineering. Combines solid technical foundations with strong problem-solving, structured organization and collaborative teamwork to deliver efficient software solutions.

EDUCATION

- **Institute of Technology, University of Moratuwa** — Homagama, Sri Lanka
  Diploma in Information Technology — Jan 2025 – Present
- **H/Walasmulla National School** — Walasmulla, Sri Lanka
  GCE Advanced Level (2022) | GCE Ordinary Level (2018) — 2018 – 2022

PROJECTS

AI-Powered Smart Surplus Food Redistribution & Waste Reduction System (Final Year Project – Group Leader)
Technologies: Java Spring Boot, React (Vite), MongoDB, Python, FastAPI, JWT

- Led a 6-member team building a platform that redistributes near-expiry surplus food to people in need, with expiry detection, food listings, reservations, QR-based allocation and analytics.
- Owned the AI layer: a priority matching algorithm that allocates food requests and an AI-based surplus prediction service, delivered as Python/FastAPI microservices.

TourMate AI – AI-Driven Smart Tourism Platform for Sri Lanka (SLTDA Tourism Start-Up Competition 2026)
Technologies: React, TypeScript, Tailwind CSS, Leaflet, Java 21, Spring Boot, Spring Security, MySQL, Claude API

- AI trip planner scoring destinations on interests, monsoon-aware weather, crowds and sustainability, plus a 24/7 Claude-powered assistant in English, Sinhala and Tamil.
- 12-month demand forecasting (seasonal time-series), live crowd monitoring and review sentiment analysis; REST API secured with JWT and role-based access.

Nandana Stores – ERP & POS System
Technologies: React, TypeScript, Tailwind CSS, Spring Boot 3, Java 17, Spring Data JPA, MySQL

- Built an ERP and point-of-sale system for a retail store using React, Spring Boot and MySQL.

Other projects: SK Fashion POS & E-Commerce Website, E-Commerce Backend System, Smart Health Monitoring System, Student Event Management System, Complaint Management System.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, Java, Spring Boot, React, TypeScript, JavaScript, PHP, HTML/CSS
- **Databases:** MySQL, MongoDB
- **AI/ML:** LLM integration (Claude API), time-series forecasting, sentiment analysis, prompt engineering
- **Core CS:** Networking, Operating Systems
- **Soft Skills:** Problem-solving, communication, teamwork, time management, fast learning

CERTIFICATIONS

- JavaScript Essentials 1 – Cisco NetAcad (2026)
- Python Essentials 1 – Cisco NetAcad (2026)
- Google AI Essentials – Google & Coursera (2025)
- AI/ML Engineer – SLIIT (2026)
- Introduction to Modern AI – Cisco NetAcad (2026)
- Operating Systems Basics – Cisco NetAcad (2026)
- Python for Beginners – CODL, UoM (2023)

ACHIEVEMENTS

- **Finalist:** VERTEX 2025 Robotics Challenge – ITUM (2025)
